

HUDSON'S

SUPER FLOORING

George Hudson Limited

"The Utility" Electric Floor Polishing Machine

WE have recently imported a number of these marvellous little machines for use on our polished floors, as well as to supply customers who have any quantity of flooring to care for. The use of these machines is very extensive, and in America and other countries are universally accepted for floor cleaning.

They can be used for sand-papering verandahs, balconies, and all manner of wood flooring, as well as for scrubbing with soap and water—rubber, tile, terrazzo, marble, concrete, or linoleum, the work being done considerably better and in far less time than the old method.

We find them invaluable for wax polishing wood floors.

Machines can be supplied with motor of any power or voltage, and as they are only $\frac{1}{3}$ h.p., can be attached to any ordinary lamp socket or power plug.

The standard equipment with these machines is 35 ft. of super-service waterproof cable, and one "Palmetto" Polishing Brush, and additional attachments can be supplied as follows:—

- Steel Wire Scrubbing Brush
- "Tampico" Scrubbing Brush
- Sandpaper Disc
- Polishing Pad
- Carborundum Disc and Blocks for grinding terrazzo.

These machines are made in two sizes, one each of 10 inch and 12 inch diameter.

We shall be pleased to supply any further particulars and prices upon request to our Flooring Department, which will also arrange for a demonstration on your floors.

As these machines are invaluable in business premises, hotels, flats, hospitals, clubs, halls, and private homes, we strongly advise you obtaining all particulars. By their use you will have better and cleaner floors at a reduced cost of maintenance.

Hudson's Artistic Super Floors

The Best by Test

I N presenting to you this our third " Super-Floor " Catalogue you will readily observe the tremendous advancement in modern designs and the perfection we have attained, combined with the finest timber of every kind procurable.

We have insufficient space to fully describe the wonderful possibilities of beautifying your home with our perfectly seasoned timbers. However, as our show-rooms are so centrally situated, at 7 Castlereagh Street, Sydney, you can inspect the beautiful panels of various timbers displayed there, which will convince you that our floors are incomparable.

We have numerous testimonials from Architects, Builders and the public generally, in whose homes we have installed our floors.

It is requested when ordering Super-Floor to place your orders with us as early as possible, and so prevent any delay in their timely execution.

A clear understanding at first will always result in satisfactory business ; therefore, when giving first orders they should be accompanied by satisfactory business references or remittance to cover.

WE INSTAL FLOORS COMPLETE.

Hudson's Artistic Floors

TO meet the enormous demand for this modern floor covering, George Hudson Ltd. have recently erected an extensive building for the preparation and mechanical handling of this product.

Having installed duplicate sets of most expensive machinery, we are now in a position to guarantee all orders receiving timely execution.

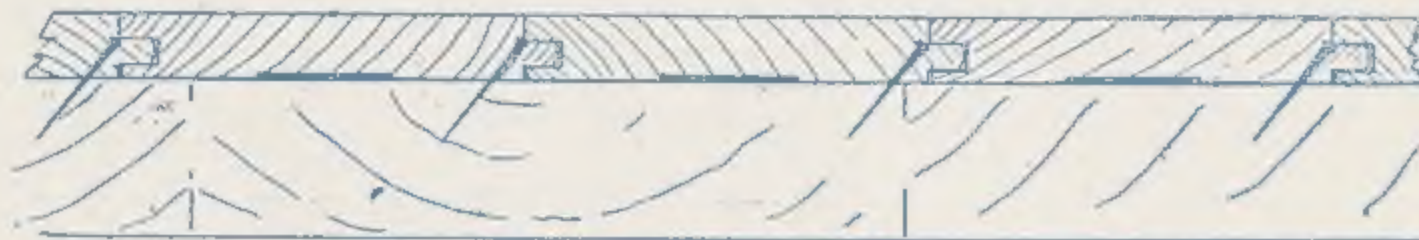

Super Flooring is prepared from thoroughly seasoned and selected timber, which is carefully matched on sides, cut accurately to length and tongued and grooved on the ends.

This material is then ready for attaching to the surface of your existing floors, which are first covered with felt, to eliminate sound, then secret nailed, sand papered by our electrical machines, and wax polished, producing an indescribable beautiful floor.

In fixing we employ the many designs displayed in this catalogue, and harmoniously blending together every suitable timber procurable in this continent, with most artistic field and border designs.

Hudson's Super-Floor is manufactured only from thoroughly seasoned timber, it will not shrink or warp, and, being tongued and grooved all round, it is completely interlocked, which compels it to remain in position where fixed.

BALL ROOM COVERED WITH HUDSON'S SUPER FLOOR.

PACIFIC OAK, JARRAH BORDER

We electrically sandpaper any floors with special machinery.

HUDSON'S ARTISTIC FLOORS

(continued)

Super Floor is most essential for private homes, flats, business premises, hospitals, schools, churches, and especially suitable for halls and ball rooms.

Super Flooring is perfectly hygienic, as no germs can live on polished floors, and is thoroughly recommended by the medical profession, for whom we have installed numerous floors.

Super Flooring is particularly easy to keep clean by the proper methods, which are fully described in our booklet, "Polished Floors, and How to Care for Them." We will supply a copy of this booklet with every floor installed and will post a copy to those for whom we have installed floors upon request.

Super Flooring is incomparable with all other floor coverings, both as regards appearance and its everlasting qualities, and is very much cheaper than carpets and more hygienic.

We supply Super Flooring fixed, electrically cleaned off, filled in and wax polished, or the materials "ready cut," in bundles, milled, end matched to approved designs and ready for fixing.

We stock Hudson's Super Flooring in Pacific Oak, Jarrah, Maple, Blackwood, Mountain Ash, Tasmanian Oak, Tallowwood, Rosewood, Silky Oak, etc., etc., and can prepare in lengths and sizes for making up any design.

HUDSON'S ELECTRIC FLOOR-SURFACING MACHINES

WE ARE EXPERTS ON BALLROOM FLOORS.

Electric Floor-Surfacing Machines

WE have a large number of the most modern and best equipped Floor Surfacing Machines obtainable. They have special vacuum attachments which collect the dust from the roller. The edging system is perfect, enabling us to work practically right up to skirting and outside finishes. Where power is not available we can supply a petrol-driven generating set. These machines are for hire by the day for any class of floor levelling; we supply most capable and carefully trained operators, and the highest grade of garnet paper, and make our own arrangements for supply of power.

WE ARE FLOORING SPECIALISTS.

Hudson's Artistic Floors for Display Purposes

WE have made a special study of our flooring for display purposes, in flooring show cases and windows, and have a staff of experts who will be pleased to submit suggestions for the use of our flooring for this purpose.

It is artistic, permanent, and considerably improves the appearance of your premises and all goods displayed thereon.

Obtain our quotation before you waste further time and money on temporary coverings, which are quite out of date with modern requirements.

WE MAINTAIN ANY FLOORS.

Block Parquetry Flooring

OWING to the large demand for Super Flooring to be laid over cement surfaces, GEORGE HUDSON LTD. have combined with this department a Block Parquetry Flooring, manufactured and fixed as illustrated below.

Like Super Flooring, this material is also prepared from selected seasoned timber, and can be fixed to a number of designs in this catalogue.

It is tongued and grooved on the sides and ends and then securely fixed in a bituminous composition by skilled and expert workmen.

These floors are electrically cleaned off, filled in, and wax polished on completion.

Standard sizes are $2\frac{1}{2}$ " face finish by $\frac{13}{16}$ " thickness finish, but can be supplied in other sizes if desired.

We have installed thousands of yards of this class of flooring with very pleasing results to Architects and Builders.

It produces a comparatively noiseless and most suitable floor for any purpose, and gives everlasting wear, apart from its pleasing and rich effect.

We shall be pleased to furnish quotations with samples on request.

WE SUPPLY ALL SEASONED FLOORING

End-Matched Flooring

Samples Jarrah Flooring showing End Matching

ARCHITECTS and Builders—we strongly recommend that you obtain all flooring “End-matched.” By this we mean tongued and grooved on the ends, because it has the following distinct advantages over the old-fashioned style of ordinary flooring:

Entirely eliminates all waste.

Produces perfect joints.

Reduces fixing cost.

Avoids end nailing.

Saves you money.

We shall be pleased to supply you with samples and any further information upon request.
